SHIPPING AND STORAGE BRANCH MEMORANDUM NO. 13.2

Telegraphic Expenditures

Collect telegrams addressed to Shipping and Storage Branch field offices by vendors, processors and warehousemen relative to commodity movements are operating costs chargeable to program expense. All outgoing telegrams regardless of operation should be charged to the Administrative Expense allotment.

This program expense expenditure is limited to collect wires sent by vendors, processors and warehousemen to field offices regarding car movements and does not include such costs as communications originating with the field offices in connection with policing activities, wires sent between Shipping and Storage field offices regarding car movements, or items pertaining strictly to the business of the vendor, processor or warehouseman, such as offer to sell or render a service.

Arrangements have been made by the Fiscal Branch with telegraph billing offices to render separate invoices for collect telegrams accepted by Shipping and Storage field offices with supporting copies of the telegrams.

This memorandum supersedes Transportation and Warehousing Branch Memorandum No. 12, dated October 22, 1943.

H. O. Warlick
H. O. Warlick, Director
Shipping and Storage Branch
